

WHY DISCOVERY SOCCER ACADEMY?

CULTURE

Discovery Soccer Academy prides itself on providing a pure developmental culture. Our coaches share the same beliefs about development and collaborate to reach goals through our established set of core values and best practices. This consistency is a result of our clear pathway of development which puts what is best for the players ahead of game results. While we celebrate positive results, we do not sacrifice the players' education to achieve them.

VALUE

Discovery takes pride in providing top player development while also providing an affordable program fee. Our membership fee is more inclusive while staying lower than many other professionally run programs. Winter league play and a full uniform package are included in our fees, setting us apart from other clubs. Adding to the value are additional programs and events throughout the year, as well as maintaining modest and developmentally appropriate roster sizes.

FULL PROFESSIONAL STAFF

Discovery's directors both have 2 decades of full-time professional youth coaching experience. They have trained numerous players who have gone on to win National Championships and have successful Division 1 college careers. Beyond their coaching experience they attend numerous seminars and coaching education courses. Among other certificates they have both earned their USSF National Youth coaching license which is the highest youth license available in the country. All Discovery Staff members are licensed and have experience providing young players with age appropriate and effective instruction.

EDUCATION OF PLAYERS AND FAMILIES

The quality of our culture allows us to provide the benefits of a true teaching academy, where players receive the attention they deserve in a consistent and cooperative setting. Our coaches work together using the same philosophy and curriculum; we educate each player on the importance of developing strong character as well as strong playing ability. Furthermore we spend the time necessary to communicate with parents, giving valuable insight regarding our methods and developmental philosophy.

POSITIVE TEAM ENVIRONMENT

We believe that good players must also be good teammates. Discovery's detail-oriented culture places the primary focus on individual player development while still being able to provide a positive team learning environment. We empower our players by encouraging them to take ownership for their development, ensuring that it always remains the players' game.

TEAM-BUILDING EVENTS & COMMUNITY SERVICE

Throughout the course of the year we will schedule additional events off the field. Whether a night out bowling, a quick trip for frozen yogurt, or getting out to give back to the community, we provide opportunities for players to interact with their teammates, coaches and community away from the game. This provides each coach with valuable insight to players' personalities that can be used to tailor teaching to the individual player.

ADDITIONAL PROGRAMMING

Discovery provides additional training opportunities for all players and families. We encourage players to attend additional clinics and training offered throughout the year giving players the opportunity further advance their development. Due to our consistent culture, members are able to utilize all programs knowing they will always receive the same developmental product.
